

Imaginx branded product only from Think Ink Solutions

Wide format solvent inks

We have solutions available for a range of printers:

- Roland
- Mimaki
- Mutoh
- Epson

All inks are supplied in OEM equivalent packaging including matching chips for easy plug and print installation without a need for a technician, so no printer down-time.

Imaginx are low odour and are safe to use in unventilated environments. Designed to be used on high speed printers with no need to flush or spend costly time re profiling.

You can use directly on top of the OEM Mimaki ink and replace cartridges individually or replace the complete set of Imaginx inks.

We also supply in 1 litre bottles and 2 litre MBIS for those customers that have bulk ink refill systems.

Wide Format Inks

BIG ON DETAIL

**Mimaki
Data
Sheet**

Think ink. Think solutions. Think of us.

- Formulated specifically as a direct replacement to OEM ink.
- Colour matched to the OEM therefore no re-profiling required.
- Excellent adhesion on most recognised ink media available in the market.
- Excellent outdoor durability with proven resistance to colour fading.
- Simple change over from OEM ink with no flushing required.
- We can save you money without compromising quality.
- Strict quality control process during the production and filling process ensuring consistent and reliable product.

Our inks are designed for an easy change over for users of original **Mimaki** large format digital printers.
